

Exclusive Corporate Hospital Benefit Scheme In servicing Ananda College OBA Members.

Introduction.

The entry of Nawaloka Hospitals into the state-dominated healthcare sector in 1985, saw the private health care system take root in Sri Lanka. The launch of the hospital and the overwhelming response it received from the people demonstrated a long-felt need for superior healthcare in a pleasant environment. As Sri Lanka's first premier multi-specialty hospital, Nawaloka was set up to mirror reputed hospitals in the region which offered advanced medical technology and expert medical care, thus eliminating the need for people to travel out of Sri Lanka for specialized medical treatment.

The Hospital was a pioneering initiative, established under the Chairmanship of Late Deshamanya H. K. Dharmadasa, to be a center of excellence in high technology diagnostic and curative facilities. Driven by the Vision to be the Hospital of Tomorrow, the medical institution has come to be known as a center of excellence and a preferred healthcare institution in the country.

Nawaloka Hospital is pleased to offer your prestigious organization a special benefit scheme & having the confidence to provide comprehensive coverage on medical assistance to your valued clientele and their family members.

Get your healthcare needs satisfied in Sri Lanka!

We are proud to say that we have overcome the current global pandemic successfully. At Nawaloka Hospitals, we have all the required healthcare facilities to serve a world class treatment while adhering to JCI guidelines and have the largest, best in class consultant panel base

NAWALOKA HOSPITALS

Nawaloka Hospital is one of the top of the mind hospital brand when it comes to providing medical and healthcare services to its prestigious clientele. Having located in the heart of Colombo and closer to key economical points, given the convenient access to any person who wishes to be served.

Our Excellences in the Industry.

Physiotherapy uses evidence based techniques to restore movement and function in those who are injured or affected by a health condition. It can help you avoid surgery, manage pain and reduce medications and the risk of injury. Furthermore, compared with many other treatments, physiotherapy is also very cost effective.

Our highly skilled and qualified physiotherapists are well capable of helping you manage a range of conditions and their symptoms.

To receive physiotherapy treatments you can bring a referral letter from a doctor or even a self-referral.
